

Jay Darji

Ahmedabad, Gujarat, India | +91-9712967331 | jaydarji256@gmail.com

Professional Summary

Computer Engineering undergraduate with hands-on experience in data analytics and data science, and project work in machine learning, NLP and application deployment. Skilled in Python, SQL, Scikit-learn, Streamlit, Power BI and Tableau, with exposure to Deep Learning and Generative AI.

Education

Vishwakarma Government Engineering College

Bachelor of Engineering (Computer Engineering)

Ahmedabad, Gujarat

2023 - 2027

Skills

Programming & Data: Python, SQL, Pandas, NumPy, MySQL

AI / ML: Machine Learning, Deep Learning, Generative AI, NLP, Scikit-learn

Visualization & Deployment: Power BI, Tableau, Streamlit, REST APIs, Model Deployment

Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Experience

Virtual DataScience Explorer Intern-YuvaIntern

Jul 2026 - Aug 2026

- Completed weekly data science assignments covering project planning, exploratory data analysis, machine learning workflows, and insight presentation.
- Prepared structured Word reports and technical documentation for hypothetical data science projects, including methodology, visualization strategy, model evaluation plans, and recommendations.

Data Analytics Intern - SkillFied Mentor

Sep 2025 - Oct 2025

- Completed assigned data analytics tasks and gained practical exposure to working with datasets, analytical workflows, and preparing structured findings.
- Developed hands-on familiarity with the data analysis process, including organizing data, interpreting results, and documenting insights.

Projects

Movie Recommender System | *Python* | *NLP* | *Scikit-learn* | *Streamlit* | *TMDB API*

- Built and deployed a content-based movie recommender using movie metadata, CountVectorizer and cosine similarity.
- Integrated the TMDB API and implemented preprocessing and similarity-based recommendations in an interactive Streamlit app.

Spam Classifier (SpamShield) | *Python* | *NLP* | *NLTK* | *TF-IDF* | *Scikit-learn* | *Streamlit*

- Developed and deployed an SMS spam classifier using NLP preprocessing and TF-IDF/CountVectorizer features.
- Evaluated the classification model and packaged the trained pipeline for a functional Streamlit application.

Expense Tracker | *Python* | *CLI* | *CSV*

- Built a command-line expense tracker to record, categorize, view and manage daily expenses using Python and CSV storage.
- Implemented file handling and basic data management for persistent expense records.

Certifications

- Time Series Analysis - IIT Guwahati
- Deloitte Data Analytics Job Simulation – Forage

Additional

Languages: English, Hindi, Gujarati

Interests: Reading, Research Papers, Photography & Videography
